DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joe Rossi on 4/13/06.

The application has been amended as follows:

Please cancel claims 1-58.

Please amend the specification on page 1, line 2 of the first paragraph after "12 August 2002," please insert --now abandoned,--

Please amend the specification on page 1, line 2 of the first paragraph after "9 January 2003," please insert --now abandoned,--

- 2. The following is an examiner's statement of reasons for allowance:
- 3. Claims 59-72 are allowed.
- 4. The prior art of record fails to teach or suggest the applicant specific surfactant described in formula IVb for use in a method for reducing surface defects of a semiconductor. Although

the surfactant has been used in other processes. These prior art processes would not render obvious the specific method described in instant claim 59. As such these claims have been found to be allowable.

5. Bayes et al (US 6,261,466) has been cited to provide a general teaching of the state of the art in surfactant use with regard to defect reduction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
